Subject: North Huntingdon Water Rescue and FSI Rescue Boats

Hi Mark

We were asked about our use of FSI boats on our water rescue team. We are on our second FSI unit and we are very happy with it. It's a F YRR385D 12.5 ft inflatable that we keep stowed on a cart for more portable needs.

If you are looking for some feedback for a project just let me know how I can help.

Shane
